### DETAILED ACTION

The following is an examiner's statement of reasons for allowance:

The limitation "squeezing the resilient EMI gasket between the first and second jaws and causing a portion of the resilient EMI gasket to protrude beyond an edge of one of either the first and the second jaws" of claim 1, "an actuator linked to the pump and configured to operate the pump when the actuator is activated, thereby inflating the resilient EMI gasket and causing a portion of the resilient EMI gasket to protrude," of claim 10, "operating a cam-lever to squeeze the resilient EMI gasket against a face of the step, thereby causing a portion of the resilient EMI gasket to expand circumferentially to protrude beyond an anterior outer edge of the stepped plate to come into contact with and be forced against the surface" of claim 16, "causing a portion of the resilient EMI gasket to protrude beyond an edge of the device such that the protruding portion of the resilient EMI gasket is forced into contact with the housing surface" of claim 26, "rotating a threaded shaft to squeeze the resilient EMI gasket against a face of the step, thereby causing a portion of the resilient EMI gasket to protrude beyond an anterior outer edge of the stepped plate to forcibly contact the surface" of claim 31," causing a portion of the inflatable resilient EMI gasket to protrude beyond an anterior outer edge of the device to come into contact with the housing surface," of claim 34, "squeezing a bladder that is in fluid communication with the inflatable resilient EMI gasket to inflate the inflatable resilient EMI gasket, thereby causing a portion of the inflatable resilient EMI gasket to come into contact with and be forced against the surface" of claim 37, "rotating a threaded shaft to inflate

the inflatable resilient EMI gasket, thereby causing a portion of the inflatable resilient EMI gasket to come into contact with and be forced against the surface" of claim 39 in combination with other limitations present is neither taught nor disclosed in the prior art of record.
